May 2018, Newsletter

To my Valued Clients, Friends, and Family,

After 16 years at 200 Fair Street, Kingston NY, I am very pleased to announce we have moved into a wonderful new office.

The new address, 233 Fair Street, Kingston NY.....you may get the impression we like Fair Street in Kingston NY! And in fact, we do.

The City of Kingston has an incredible collection of historic homes, buildings, parks and Landscapes that give a feeling of prominence and history. For an architectural office that creates designs based on historic restoration, elegant homes and forward thinking sustainable Projects we are able to enjoy a lovely palette within our immediate manageable surroundings.

Our office has grown to focus on finding the best solutions for the varied request from our Clients. We are humbled to be part of everything from restoring homes from the best architects in American History to creating the World's largest (and quite elegant) residential micro-grid.

Please enjoy the small collection of pictures of our recent moving adventure.

- Andrew
